TouchSystems' M2 19" Touch Screen Monitor claims an eco-friendly design. It consumes less energy; utilizes recycled plastics in its production; and is free of hazardous materials such as mercury, halogen, and arsenic. It also is accompanied by a carbon footprint meter and an Intelligent Power Manager (IPM) system.

Medical
The two-step ECO Mode™ and the LED backlighting save power, reduce heat, and extend the life of the display.

Corporate
The monitor's dual-input technology bridges the gap between analog and digital systems.

Education
The monitor's Rapid Response technology provides a fast and accurate touch response as well as an almost undistorted viewing of high-speed, full-motion video.

Hospitality
The monitor supports various mounting options, conserving space while providing a focal point to almost any environment.
